DEAR FRIENDS:

We're delighted to be able to show, to some extent, the beauty which can be yours, on the covers of this catalog. We do not pretend that the pictures do justice to the real flowers, but they do bring to mind the lovely effects you can have by using these most easily grown Dutch bulbs in your Garden.

Although it's fall, we greet you as a breath of spring, gently warming the chill air, invigorating spirits, bringing new life into growing things, and such a greeting is not out of place, for we are at the same time urging you to plant our fine quality Holland grown bulbs. They'll greet you, gloriously, for us, with the first breath of spring.

You'll find the quality of our bulbs unsurpassed—We guarantee them to bloom for you—and our prices—well, check them against any other reliable dealer's—they're "rock bottom" and a welcome thought that is in times like these.

Park's Dutch Bulbs then, are the buy of the year. You can't eat them, but meat and potatoes leave something lacking, which we feel, is likely nourishment for the soul, so amply provided in these glorious blooms. Perhaps it was Confucius who said: If I had two loaves of bread, I'd sell one and buy a white Hyacinth to feed my soul." Things are far from that bad in this country but certainly we do need more food for the soul, and perhaps the beauty of God's creation to be found in the garden, is what more of us need.

We'll look forward to hearing from you. It will be a pleasure to serve you, especially since reports from our growers indicate that we'll have extra fine bulbs for you. You'll like our service too, and perhaps even appreciate this gentle reminder, if because of it, you plant these lovelies in your garden. For, they'll burst forth into glorious color thrilling you to your toes and bringing the good springtime with them too.

Floricordially yours,
GEO. W. PARK SEED CO.

GIANT PANSIES

A PARK SPECIALTY

Pansies are well and favorably known, so that a description of their exquisite beauty, and usefulness in the garden is unnecessary. They are simply indispensable, and if we were to name a half dozen of our best seedling flowers, the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in vigor and free-blooming quality to other plants as well as the great size, form, variety, and richness of colors and variations. We are pleased to say that the seeds we offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or price.

PARK'S PERENNIAL FLOWER SEEDS

for Permanence and Charm

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention.

Directions for making outdoor beds and sowing seeds are sent with every order.

Hp. HARDY PERENNIALS are hardy plants which will live and bloom every year for a long period. Plants grow to the flowering stage each year and die down again to the roots which remain alive but dormant until the next season. They are very valuable for borders and cut flowers, and once established require less care than the annuals.

Hb—HARDY BIENNIALS are those which bloom the second year from seed, then die. For a continuous display of this type, seed must be sown every year.

ANNUALS for FALL SOWING — Nature's Way

Fall Sown, these produce Sturdier Plants, Earlier Bloom, Longer Stems.

The purpose in fall planting is not to germinate the seed in Autumn, but to get the seed in place, ready to grow with the first favorable weather of spring. Plant slightly deeper than in spring. Protect the sides of beds with boards to prevent washing seeds away. Apply a protective mulch as soon as the ground freezes. Ideal planting time is just before the ground freezes.

From Philadelphia southward—Larkspur may be sown in September so that the seeds may germinate in the fall. With a protective mulch after the ground freezes, they will live over winter, and give extra early long stemmed flowers. From Washington D.C. southward, Sweetpeas too can be handled this way. From Southern Virginia southward add to these Antirrhinum, Dianthus, Phlox, Poppy, Calendula.

Daffodils or Narcissi

Daffodils are the first of the major garden flowers to bloom in the spring. Doubly precious because they bring with them the joyful spring. Because so many of the hundreds of varieties of Daffodils so nearly duplicate others, we have chosen to offer a representative variety of each class and color. These have been chosen through study in our own trial grounds and close cooperation with several leading Dutch and American growers, and we can without reservation recommend each variety we offer as one of the best in its class and color.

HYBRID GOLD BANDED LILY

Lilium Auratum Platyphyllum

A Native of the Orient, this exotic flower will bring elegance to any setting. Surely it must be the world's most beautiful Lily and one of the most beautiful of all flowers.

Richly fragrant, flaring trumpets of ivory white, lightly spotted crimson with broad golden band. Individual flowers are often 7" in diameter, and borne atop a 6 ft. plant on 3 ft. stems in clusters of 6-12, is it any wonder that they dominate the garden during their blooming time in August? This is an American grown, disease free strain more vigorous, producing more freely, larger fls. with better coloring than the type. Darwin and Fosteriana Hybrid Tulip

General Eisenhower—top right. The smaller flowers shown are Darwin Tulips.

An Epic in Plant Breeding Brings Now TULIPS OF THE FUTURE Darwin X Fosteriana Hybrids

These new Tulips will be the standard by which new varieties are judged for years to come. They represent the greatest achievement of the century in Tulip breeding.

Magnificent creations that have everything: Enormous size. "Weatherproof," Undaunted by rain, wind, sun. Lasting, usually for more than 3 weeks. Strong stems. Brilliant colors. Lush, foliage. Everyone who loves Tulips should have a few. They'll be the most talked of flowers in town. Supply still very limited, order early.

GENERAL EISENHOWER. The "Paul Bunion" of Tulipdom. A huge goblet of pure shining scarlet with a purple heart framed in yellow, about three times the size of most Darwins. The stem is in proportion and easily supports the great flower. Opens before the earliest Darwin and enlarges as the stem grows longer each day until a height of 30" is reached. Superb substance and lasts unbelievably long. Rain which spoiled lesser varieties did not daunt it in our trials. The largest, earliest Darwin-like Tulip we've ever seen. \$1.25 ea.; 3 for \$3.00; 5 for \$5.00; 10 for \$9.75.

GUOSNIK. Huge strong stemmed pure yellow with confettied red spots. Blooms early, lasts well. The yellow Gen. Eisenhower tho not quite so large. \$1.00 each; 3 for \$2.75; 5 for \$4.50; 10 for \$8.50.

HOLLAND'S GLORY. Huge flower, larger than, but similar to Red Emperor, is held aloft on a stiff tree-like 20" stem to light the landscape with its brilliant vermilion scarlet color. A sensation. \$1.25 ea.; 3 for \$3.00; 5 for \$5.00; 10 for \$9.75.

HYBRID GOLD BANDED LILY (*Lilium Auratum Platyphyllum*) \$1.35 ea.
